### **Workshop on Android Application Development**

Vivekananda School of Information Technology (VSIT), Delhi organized Two Days Workshop on “Android Application Development” in collaboration with Computer Society of India. The workshop benefitted more than 120 students from Bachelor of Computer Application (BCA) and Master of Computer Application (MCA) Programme in two different batches.

The workshop was conducted in two sessions, one from 6th to 7th October 2017 and another from 13th October to 14th October 2017. It was aimed to give students’ basic understanding of the building environment for android applications. The two days workshop had hands-on session along with theory sessions step by step. The lab intensive environment gave participants in-depth knowledge and practical experience of android systems.

In the two days workshop topics like Android Architecture, Understanding Layouts and activity, Anatomy of Android Application were covered. Mr Summed Jain, Technical Lead, NCR Corporation, Gurgaon was the resource person of this workshop. He had several years of experience in the area. The workshop gave students an insight of the Android Application Development.

On Day 1, the students were acquainted with the in-depth theoretical knowledge about the android systems, how they work, android architecture and the basic idea of the Java language.

On Day 2, there was a practical session on app development where students first learnt about the built-in function in android studio and how to use them. After this, they designed their own forms.

The workshop proved to be an exhilarating experience for all those who attended the event. The workshop was organized by Dr Deepali Kamthania, Associate Professor, VSIT.
