Facebook Developer Circle Workshop

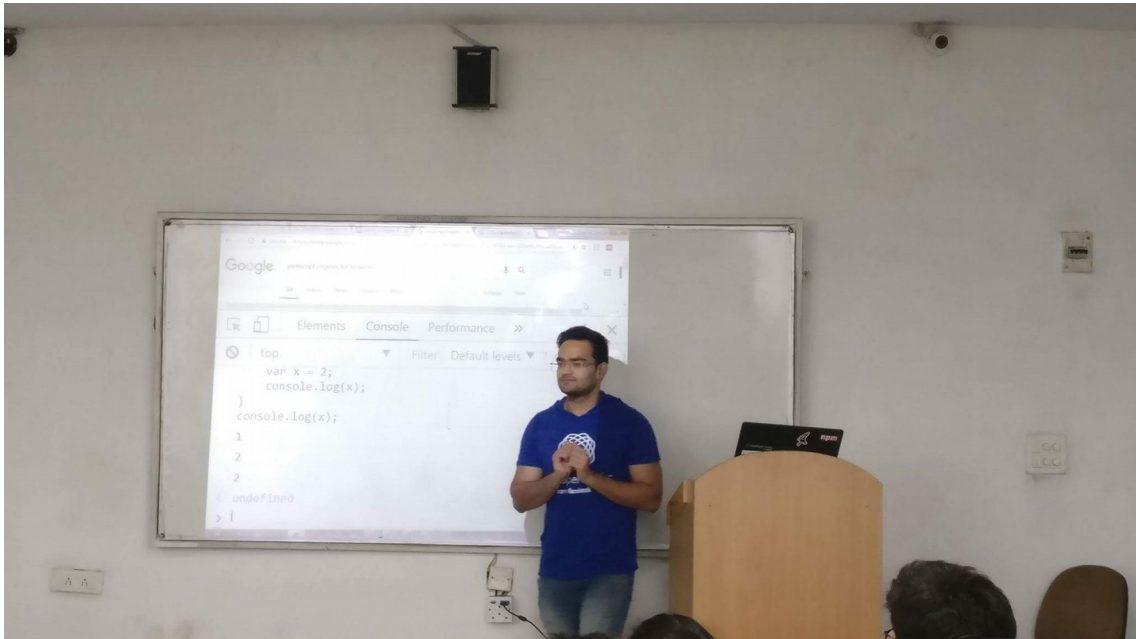

(An Interactive Session on Javascript And Reactjs)

Facebook Developer Circle (FDC) is a community of developers, programmers, designers and entrepreneurs which help new developers to connect and collaborate with each other. FDC organises seminars and workshops to share their experiences and thoughts. Thus provides a platform for others to upgrade their technical skills and knowledge.

On 15th October 2017, a workshop was organized at VSIT under FDC in collaboration with ACE, CSI Student Chapter of VIPS. Speakers of the workshop were Mr Harshit Juneja, Trainer, Bennet Coleman Ltd, Gurgaon and Mr Pulkit Kakkar, Front End Development Expert, Facebook Developer Circle. The aim of the session was to provide insight and understanding of JavaScript and React.js. The session was attended by 35 students. The workshop began with a brief introduction and benefits of joining about FDC followed by a session on JavaScript by Mr Harshit Juneja. The second session was taken by Mr Pulkit Kakkar. He shared his knowledge on React.Js He gave students idea about how ReactJs works and how useful it is in today's world. The workshop proved out to be really helpful, students learned about the latest technology trends in web development.
