Talk on Big Data

Academic Committee, VSIT, organized a talk on "Big Data" on 28th March 2018, for the students of MCA-1st and 2nd year in the auditorium. The talk was delivered by Mr. Gurkhivi and his team from Datreon, the strongest upcoming leader in Big Data, IoT & Smart Cities. Dr. Supriya Madan, Dean, Placement, gave floral welcome and presented memento as a token of respect.

The eminent speaker shared his immense knowledge briefing the students with the concept, significance and real-time application of Big Data. He provided insight on Big Data and end-to-end services to help the easy processing of enterprise's big data. The key features of the talk were:

- Big Data Management strategy & Roadmap creation
- Migrating from existing platform to Hadoop & Spark
- Developing Service on Hadoop, MapReduce, Spark, Hive, Flume, Storm, Tableau, Mahout, Sqoop

He demonstrated a live model of SAN, a dedicated high-speed network or sub-network that interconnects and presents shared pools of storage devices to multiple servers.

The speaker also enlightened the students about cryptocurrency such as BitCoin.
